

THE PLUMMER GROUP

COMPANY SNAPSHOT

The Plummer Group (TPG) is a minority-service disabled veteran owned small business specializing in delivering cross functional expertise in technology solutions, logistics and sourcing, and training and development. We have developed a reputation of integrity, respect, and professionalism through our customized results-driven approach for both our federal and commercial clients. Our team is backed by over two decades of cross functional experience, military service, and accreditations including CISA, PMP, AWS, and itil certifications.

DIFFERENTIATORS

- Functional and Technical Cross-Industry Experts aligning People, Processes, Technology, and Metrics.
- Dedication to client success and 10 year track record of meeting and exceeding project objectives on schedule and within budget.
- Consulting professionals with over 25 years of strong logistical skills, application solution expertise, best practices, and past client experiences to provide robust, custom client solutions.
- Commitment to understanding each client's supply chain needs so that we can provide effective solutions through innovative logistical and technical methodologies and backed by our strategic network of qualified support.
- Utilizes the technology lifecycle strategies and solutions, including emerging cloud based infrastructures and AI solutions.
- Customized development solutions that target learning and skill gaps including interactive training, executive coaching, account management, and online learning applications.

EXPERIENCE

Department of the Army

Scope: Worked as a Logistics Cutover Lead for Northrop Grumman on the GCSS Army project. Delivered support by performing SAP MM configuration, Functional Design and creating Functional Specification Documents.

Department of the Army

Scope: Worked as a subcontractor for Northrop Grumman on the GCSS Army project. Provided support as an ERP Solutions Expert. Providing SAP MRP configuration, business process enhancements, design, and defect resolutions.

Department of the Navy

Scope: Subcontracted on the NAVY ERP Sustainment contract for IBM. Supplied functional support for business process enhancements, design, and defect resolutions in the SAP Materials Management module.

State of Illinois

Scope: Functional consultant on the State of Illinois project. Supplied SAP WM support by designing warehouse processes in an SAP ECC system, creating functional specification documents, and developing functional, and user acceptance testing plans.

Nestle Purina Petcare Company

Scope: Designed, developed, and taught, a series of custom courses geared for transition from NPPC's legacy Warehouse and Procurement systems to SAP. Gathered NPPC-specific files and examples, formulated the course objectives, wrote the training guides, and created the accompanying quick reference guides.
